Va rugam sa confirmati participarea Dvs. la Dna Agnes Stepanian
agnes.stepanian@rectorat.upt.ro sau la telefon 0256-403010.

Project title: *Studies for assistance to commercialize innovative research results of PROs in Timis and Csongr ad counties serving as a pilot for future projects*

Acronym: COMINPRO

Project code: HURO/1001/043/2.2.4

The project aims to strengthen the cooperation between the Romanian and Hungarian innovation related public research organizations (PROs). During the 12 months period we establish new contacts and exchange our expertise and experience regarding technology transfer practices. The project develops the current relations of PROs on both sides of the border. By the implementation of the project, organizations can get precise information about "how-to-do" successful cross-border technology transfer and R&D service providing activities. They get relevant tasks for further technology transfer activities, which will ensure the sustainability of the project. We are going to map joint R&D fields in order to map co-operation possibilities.

The project will contribute to create real business value from the innovative technologies and solutions of PROs in Timis and Csongr ad counties thus having a positive effect on the economy in both countries.

Cu stim ,
Prof.dr.ing. Radu Vasiu
Co-ordonator Proiect COMINPRO
Director Centrul de cercetare Multimedia
